Learning Technologies:

Articulate Storyline 360 • Articulate Rise 360 • Canvas LMS • Microsoft Teams • Canva

PROFESSIONAL SUMMARY

Learning and development professional with 19 years of experience diagnosing performance gaps, designing targeted training solutions, facilitating large-group learning, and evaluating impact to improve performance outcomes. Directed multi-year development programs for 150+ participants annually, aligning learning strategy with organizational goals, strengthening leadership readiness, and improving coordinated team performance. Skilled in leadership development, scenario-based learning design, and continuous program improvement using structured feedback and assessment data.

PROFESSIONAL EXPERIENCE

Learning Program Specialist

Multiple School Districts | Delaware, Virginia, and Maryland | 2006-present

- Conducted needs analysis and designed a multi-year learning program for 150+ participants annually, using progressive learning pathways to strengthen skill development, leadership readiness, learner progression, and coordinated team performance across mixed-experience cohorts.
- Partnered with school leadership to assess faculty performance needs and design targeted professional development, resulting in stronger team alignment, more efficient collaboration, and more consistent implementation of instructional practices.
- Coached faculty on Canvas LMS workflows, troubleshooting platform challenges, and sharing best practices to increase adoption, improve course management consistency, and strengthen digital communication.
- Designed leadership development experiences and coached emerging leaders in communication, accountability, and team coordination, strengthening peer leadership readiness, team execution, and internal leadership continuity.
- Facilitated daily structured training for cohorts of up to 100 participants, strengthening learner accountability, skill progression, and coordinated team performance across mixed-experience groups.
- Managed long-term planning, logistics, and stakeholder communication for a large-scale development program, aligning administrators, staff, and external partners to support learner readiness and successful execution of complex program outcomes.
- Built feedback and assessment systems to evaluate learning effectiveness, guide instructional decisions, and improve learner readiness and performance outcomes.
- Presented program outcomes, performance metrics, and strategic initiatives to stakeholders, supporting data-informed decisions on program development, resource planning, and continuous improvement.

EDUCATION

Bachelor of Science, Music Education | University of Delaware - May, 2006

Master of Music | James Madison University - May, 2010
